

**BV3I2338 is a Brushless motor for the applications of Hand Dryer.**

## Model: BV3I2338

**BV3I2338 brushless motor is a high power delivered and robust brushless motor with mounting suitable for most applications; for example hand dryer. As a result of using the latest materials technology, the design of BV3I2338 motors offer comparatively high efficiency and high load capability for their weight.**

**CCL motors with the high quality of manufacturing, safety and reliability, as well as performance are one of the best brushless motors available in the market.**

### Features:

- 120 or 230V AC
- 26,200rpm
- Ø 130.0 mm x L 114.0mm
- Insulation Class F
- Longer lifetime
- Increased efficiency
- Elimination of ionizing sparks from the commutator
- Overall reduction of EMI

### Application:

- Hand Dryer
- Vacuum Cleaner

**Sample Request!**
